

Greetings:

Today marks another low point in the new Federal administration. Regardless if you believe it to be legitimate or not, we must be aware of the ramifications of its agenda. If you are of a similar mind, you will understand the struggle I have faced each day since Nov 4, 2020 and even before. My goal for 2021 is to move beyond the sadness I feel and look forward to the hope of a brighter future and return to rational normalcy. A motto for this goal: "Expressing gratitude changes one's perspective". My gratitude is to the God who blesses our great nation and to the Founders who created the United States of America, to be a Land of Liberty and Hope. Our Declaration of Independence, Bill of Rights, and Constitution are the Law of our Land. Often I hear, what can we do to help make America Great Again? My answer is simply, be proactive not reactive. Be doers, and provide solutions, not just Sayers, or simply just complain.

A good place to start, and to be informed.

There is a Federal Bill HR 127 which if passed will be more than enough to set US Law infringing our 2nd Amendment Right , to perhaps a point of no return. To view the Federal Bill HR 127 please click on the following link.

Amendment X

The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

My opinion is, we here in Wyoming need to focus on Wyoming laws first.

Please follow the Wyoming legislature session. With the continued CCP Virus restrictions the session is virtual, you can listen to the discussion.

Bills to watch:

SF 0067 Repeal gun free zones and Preemption amendment

SF 0081 Second Amendment Preservation Act

Using the above address go to Wyoming Legislature site then, in search box type in SF0067 or SF0081 to read bills

We are a truly Blessed and Great Nation "We the People" need to never forget our foundation and support and actively defend our Constitution.

Many of you are aware that 2021 has already been shown to be historically “Unprecedented” in the Political realm. We have already seen 2022 candidates step forward to throw their hat in the ring here in Wyoming for the U S Congressional race, and there is much chatter about the 2024 Presidential election. Regardless of your political leanings, it is now, more than ever before, important to be an Informed Active United States Citizen.

“We the People” must know our Founding documents, Declaration of Independence, United States Constitution, Bill of Rights and yes as Wyomingites know our Wyoming State Constitution.

Are the News sources we trusted yesterday, the same news sources we should be trusting to give us the truth today? What do we do, where do we turn? Options are out there. We ask that you proactively set goal to be your own best self-advocate, with due diligence “be the people” for yourself, your family, your community, and our Country.
